3.0 Portfolio profile

Please indicate your required overall investment objective by ticking **ONE** of the following options.

FIM Capital "Selective Portfolio"

The "Selective Portfolio" will consist of a range of UK equities chosen for their quality and diversity but above all for their typical long term dividend growth track record. Accumulated dividend income will be paid out to clients each quarter as directed below or reinvested back into the portfolio.

FIM Capital "Selective Growth Portfolio"

The "Selective Growth Portfolio" will consist of a range of UK equities chosen for their quality and diversity solely from the FTSE 250 index. Their track record for dividend growth will typically be less than that of the "Selective Portfolio" and therefore in some instances the underlying business may be less mature. Accumulated dividend income will be paid out to clients each quarter as directed below or reinvested back into the portfolio.

FIM Capital "Collective Portfolio"

The Pound a Day "Collective Portfolio" will consist of a range of carefully chosen investment trusts providing a broad exposure to a variety of asset classes, including fixed interest, equities and precious metals, for a more balanced approach. Clients will have the ability to either receive dividend income generated by the portfolio each quarter or to reinvest income back into the portfolio.

4.0 Contract Notes

A contract note will be generated following each transaction and can be viewed via the internet. These will be held on file, but should you wish to receive them by post, please tick the box.

5.0 Internet Access

A feature of the Pound a Day™ Stocks and Shares Individual Savings Account is that you will automatically be provided with internet access to view your portfolio online.

By using the online service you note and agree to the following:

1. The valuation will be shown in the base currency selected when the account was opened. This cannot be amended online.
2. A password will be issued by FIM Capital for use on the relevant section of the FIM Capital website.
3. The password cannot be changed by the user.
4. The password has no expiry date.
5. Should the password be forgotten FIM Capital will issue a replacement password upon request.
6. It is the responsibility of the user to ensure that the password remains confidential and is not disclosed to a third party who may then access the information.
7. FIM Capital take no responsibility for any actions taken by a third party should they become aware of your password once it is allocated to you.
8. No investment instructions can be given via the website.
9. The valuation will be generally calculated using the previous day's closing cash balances, securities prices and exchanges rates. Prices displayed may not necessarily be those achieved when dealing is processed even if on the same day. FIM Capital cannot guarantee the accuracy of pricing received from an external source.
10. Deals transacted during the day may not be reflected on the valuation until the settlement date.

9.0 Obligations to IOM and US Tax Authorities

We are required by the Isle of Man Tax Authorities to comply with the Common Reporting Standards (CRS). This involves identifying customers who appear to be tax resident outside of the Isle of Man and report certain information to them. Applicants must supply their National Insurance Number (NI) or Tax Identification Number (TIN) or the reason why one is not supplied. Unfortunately we are unable to complete the application process without this information.

We are required by the US Tax Authorities - Internal Revenue Service (IRS), to document all holders of US securities. In order to simplify this process we ask all account holders complete the form regardless of the portfolio profile. With regard to US assets this is beneficial for residents of countries that have a double taxation treaty with the US as there may be some tax relief on US dividend and interest payments.

Individuals need to complete form W-8BEN.
