When returning your completed application form please ensure that the documents listed below are enclosed.

Please Note: documentary evidence of the source of wealth may be required in some cases.

* A certifier must be a suitable person, such as a lawyer, accountant, director or manager of an authorised credit or financial institution, a director, company secretary or manager of a licensed CSP, a notary public, a member of the judiciary, a senior civil servant, a Consular Official at a British Embassy or Consulate, or a serving Police Officer. The certifier should sign and date the copy document (printing their name clearly in capitals underneath), state that it is a true copy of the original, a true likeness of the individual, and clearly indicate their position or capacity on it.

3.0 Your choice of Pound a Day Portfolio profile

Please indicate your required overall investment objective by ticking ONE of the following options.

Please Note: should you wish to have investment exposure to more than one profile, a separate application form will need to be completed for each.

The Pound a Day “Collective Portfolio”

The Pound a Day “Collective Portfolio” will consist of a range of carefully chosen collective investment funds providing a broad exposure to a variety of asset classes, including fixed interest, equities and precious metals, for a more balanced approach. Clients will have the ability to either receive dividend income generated by the portfolio each quarter or to reinvest income back into the portfolio.

The Pound a Day “Selective Portfolio”

The Pound a Day “Selective Portfolio” will consist of a range of UK equities chosen for their quality and diversity but above all for their typical long term dividend growth track record. Accumulated dividend income will be paid out to clients each quarter as directed below or reinvested back into the portfolio.

The Pound a Day “Selective Growth Portfolio”

The Pound a Day “Selective Growth Portfolio” will consist of a range of UK equities chosen for their quality and diversity solely from the FTSE 250 index. Their track record for dividend growth will typically be less than that of the “Selective Portfolio” and therefore in some instances the underlying business may be less mature. Accumulated dividend income will be paid out to clients each quarter as directed below or reinvested back into the portfolio.

The Pound a Day “American Selective Portfolio”

The Pound a Day “American Selective Portfolio” will consist of a range of American equities chosen for their quality and diversity but above all for their typical long term dividend growth track record. Accumulated dividend income will be paid out to clients each quarter as directed below or reinvested back into the portfolio.

4.0 Savings Scheme

If you wish to supplement your portfolio you can choose to establish a regular savings plan to pay a minimum of £100 into your portfolio monthly. Please note that the monthly savings fund may not be invested on the day of receipt. Trades into the selected stocks are traded in bulk purchase orders. Any additional sums added to your portfolio on a regular basis will be used to purchase securities in your chosen portfolio on the next dealing day and may be held in cash until that time.

I wish to use the saving scheme and will pay the amount indicated each month:

5.0 Contract Notes

A contract note will be generated following each transaction and may be posted to you, however for security reasons you may wish to opt out of receiving these by post as each transaction can be viewed via internet access.

Please indicate by ticking the box if you wish to opt out of receiving contract notes.

6.0 Internet Access

A feature of the Pound a Day Portfolio is that you will automatically be provided with internet access to view your portfolio online.

By using the online service you note and agree to the following:

1. The valuation will be shown in the base currency selected when the account was opened. This cannot be amended online.
2. A password will be issued by FIM Capital for use on the relevant section of the FIM Capital website.
3. The password cannot be changed by the user.
4. The password has no expiry date.
5. Should the password be forgotten FIM Capital will issue a replacement password upon request.
6. It is the responsibility of the user to ensure that the password remains confidential and is not disclosed to a third party who may then access the information.
7. FIM Capital take no responsibility for any actions taken by a third party should they become aware of your password once it is allocated to you.
8. No investment instructions can be given via the website.
9. The valuation will be generally calculated using the previous day's closing cash balances, securities prices and exchanges rates. Prices displayed may not necessarily be those achieved when dealing is processed even if on the same day. FIM Capital cannot guarantee the accuracy of pricing received from an external source.
10. Deals transacted during the day may not be reflected on the valuation until the settlement date.

Please indicate by ticking the box if you DO NOT wish to be provided with internet access.

7.0 Income Instructions: Reinvestment of Income

Please tick the appropriate box:

I would prefer all income to be available for reinvestment. This will be invested across the stocks in the portfolio.

I would prefer income to be accumulated on a separate income designated account, not available for reinvestment.

10.0 Obligations to IOM and US Tax Authorities

We are required by the Isle of Man Tax Authorities to comply with the Common Reporting Standards (CRS). This involves identifying customers who appear to be tax resident outside of the Isle of Man and report certain information to them. Individual and joint applicants must supply the Tax Identification Number (TIN) or the reason why one is not supplied, whilst Entity applications must complete the Entity Self-certification form. Unfortunately we are unable to complete the application process without this information.

We are required by the US Tax Authorities - Internal Revenue Service (IRS), to document all holders of US securities. In order to simplify this process we ask all account holders to complete the form regardless of the portfolio profile. With regard to US assets this is beneficial for residents of countries that have a double taxation treaty with the US as there may be some tax relief on US dividend and interest payments.

Individuals need to complete form W-8BEN whilst entities need to complete form W-8BEN-E.

- accept(s) and confirm(s) that you have had a proper opportunity to consider the provisions of both the application form and the Terms and Conditions for Discretionary Investment Management Services;
- confirm(s) that you are 18 or over and legally able to enter into the Agreement;

Past performance is not necessarily a guide to future performance. Rates of tax are those prevailing at the current time. These are subject to change without prior notice. Any tax reliefs referred to are those currently available and their value depends on the individual circumstances of the investor.
